<https://www.whitleysec.moe.edu.sg/key-programmes/ndlپ/permalink/>

The screenshot shows the homepage of Whitley Secondary School's website. At the top, there is a navigation bar with links to About Us, Key Programmes, CCE, Departments, CCAS, Achievements, Useful Links, and 2026 SEC 1 Admin Matters. A search icon is also present. Below the navigation bar, a breadcrumb trail shows the user has navigated from HOME to KEY PROGRAMMES and then to NATIONAL DIGITAL LITERACY PROGRAMME. The main title "National Digital Literacy Programme" is displayed prominently in large white text on a dark brown background. On the left side, there is a sidebar with links to Communicative Arts, Full Subject Based Banding, Active Citizenship (with a dropdown arrow), GEAR UP, National Digital Literacy Programme (which is highlighted in orange), and STEM Education. On the right side, there is a photograph of two students, a girl and a boy, smiling. To the right of the photo are icons for printing, email, and social media sharing (Facebook and LinkedIn). The main content area below the photo discusses the National Digital Literacy Programme, mentioning its launch in March 2020 and its goal to help students strengthen their digital literacy and acquire digital skills.

The National Digital Literacy Programme (NDLP) and the PDLP

An Overview

The National Digital Literacy Programme (NDLP)

Empowering Students for a Digital Future

The NDLP was launched in **March 2020** to help students strengthen their digital literacy and acquire digital skills needed to navigate an increasingly digitalised world.

Each secondary school student will own a school-prescribed **Personal Learning Device (PLD)**.

Students may use funds from their **Edusave Account** to pay for the PLD.

Intended Outcomes of the PDLP

The use of the PLD for teaching and learning aims to:

**Support the
Development of
Digital Literacy**

**Support Self-Directed
and Collaborative
Learning**

**Enhance Teaching
and Learning**

Learning with a PLD

Whitley Secondary School

Learning with Technology @ Whitley

School's EdTech Vision

To harness technology purposefully to nurture

- empowered digital learners
- self-directed,
- collaborative, and are
- innovative critical thinkers.

Digital Literacy Skills

Find

Critically gather and evaluate information from, and use digital resources (including social media) in a safe, secure, responsible and ethical manner.

Think

Interpret and analyse data, and solve problems systematically.

Apply

Use software and devices effectively and productively; facilitate the use of knowledge and skills in new contexts; keep up with technological developments.

Create

Produce content and artefacts and collaborate with others digitally.

Basic Productivity Skills

1. Calendaring
2. Managing Digital Files
3. Navigating Google Workspace
4. Email Etiquette
5. Collaborating Online
6. Basic AI Literacy

6097 - Decision Making (Sugar/Wheat/Eggs)
how do we make decisions?

Sugar **Wheat** **Eggs** **Affirm**

Sugar
Sugar has various functions in dishes. Investigate the effect of reducing sugar content in the preparation of dishes that will appeal to teenagers. You are to prepare a baked product of your choice.

Wheat Flour
Wheat flour is used as an ingredient in a wide range of dishes. Investigate the differences between the various types of wheat flour in baked products. Show how the different types of wheat flour can be used in the preparation of a variety of sweet and savoury dishes for adults.

Eggs
Eggs are commonly used in food preparation. Plan and prepare a range of sweet and savoury dishes with the use of eggs that are interesting for families. Investigate the effects of heat on eggs to achieve a good quality egg tart.

Azwar
student A has met the requirement for baking in all their dishes and has skill set 3 batter making used for their dish 1 fruit pancake with berry and has met skill set 2 dough making for their dish 3 sweet and savoury pizza and the skill biscuits and cookies for their dish 2 chocolate chip cookies but they are missing skill set 1

Kaya Toast with Eggs
Yuqi and Aryan
5 months ago
eggs and toast
Golden-brown toast slices, extremely crisp at the edges. Beside it, two jiggly soft-boiled eggs sit in a shallow dish, their whites barely set and yolks glowing orange.
Sound: The soft crunch as you bite into the toast is satisfying. A gentle tap of the spoon on the egg cracks the shell.
Smell: The warm aroma of toasted bread mixes with the sweet fragrance of kaya. A sniff of creamy butter and the gentle hint of eggy richness fills the air, with the occasional sharp tang from a dash of dark soy sauce and white pepper sprinkled on the eggs.
Taste: Gentle clink of spoon that sends the kaya into a homogeneous mix in the ceramic bowl. Smooth, spicy, savory, and herbs clinging my nose slightly, filling my lungs with a hint of trailing refreshing scent.
Texture: A mixture of spice, rich-milky and seafood bursts in my mouth with each bite of the toast, with a mild tingling after taste, with the soothing

Revised Version
Sight: A vibrant red satay skewer with meat and vegetables. Smell: A strong, smoky fragrance of charred meat and spices. Taste: A mix of flavors with each bite, with a slight kick of heat from the chili. Texture: Soft and tender meat with a slight crunch from the vegetables.

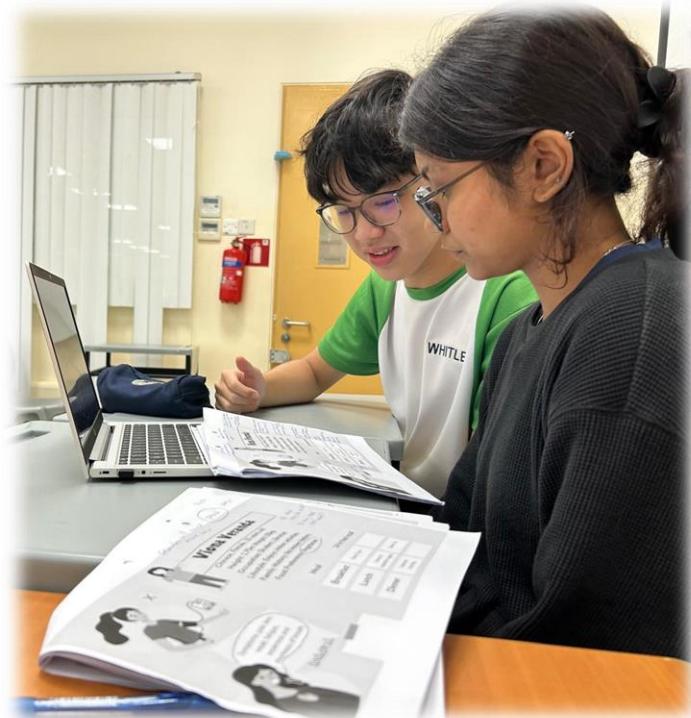

Sight
The golden-roasted kaya toast beckoned. It comes a deep smoky scent of charcoal, mingling with the rich, nutty perfume of pandan leaves. On my plate, the satay lay in a beautiful chaos. The meat skewers, charred black at the

Significance
As I stepped into the untamed hawker centre, the tantalising scent of grilled meat wafted through the air as the pleasing aroma caught my attention. The sizzling hot meat is paired with a crunchy, thick, rich and creamy peanut sauce. The pungent aroma of the raw onions gave a sharp contrast together with the shiny rice cake and fresh cucumber. The kaleidoscope of colour from the char of the satay to the sauce that gleamed with oil all of which gave the dish a rich nutty coating that gave it a tangy taste and the subtle spicy taste left a strong impression on the tongue.

Conclusion
The moment I stepped into the hawker centre, a wave of heat hit me, but it was the sizzling sound of the grill that drew me in. The air was filled with the sweet, smoky scent of charcoal, mingling with the rich, nutty perfume of pandan leaves. On my plate, the satay lay in a beautiful chaos. The meat skewers, charred black at the

Cyberbullying

Excessive social media use

Supporting Safe and Effective Use of PLDs

Cyber Wellness Education in CCE

Educating students on Cyber Wellness

Cyber Wellness lessons will feature significantly in the Character and Citizenship Education (CCE). The broad topics covered in Cyber Wellness are:

- Cyber Use
- Cyber Identity
- Cyber Relationships
- Cyber Citizenship
- Cyber Ethics

Throughout their Secondary School education, students will learn about:

- Balanced use and self control
- Cyber bullying and Upstanding
- How to be a positive influence online
- How to handle online falsehoods
- How to manage social media (peer influence, emotions, echo chambers)
- Online relationship and Online safety (grooming, self disclosure)
- To respect intellectual property rights

Supporting Students in Using PLDs Responsibly

Before Lesson

- Bring your PLD fully charged
- Use only your school-issued PLD
- Close all tabs, keep only lesson tabs open

Taking Care of PLDs

- Keep your PLD with you or locked safely when not in use
- Handle with care → no stacking, slamming, or placing items on keyboard

WHITLEY SECONDARY SCHOOL

OUR GREAT ROUTINE 2025

GREET
Show respect by greeting each other.

RESOURCES
Have your learning resources ready before the start of every lesson.

ENVIRONMENT
Ensure that your environment is clean and conducive for learning.

ASK & ANSWER QUESTIONS
Raise your hands and wait to be called to clarify your doubts.

TIME OUT
Seek teacher's permission if you need a time out to visit the washroom.

30 BISHAN ST 24 S'PORE 579747

During Lesson

- When teacher is instructing → tilt screen 45° down
- Keep PLD on the table at all times
- Ask teacher before using PLD for note-taking

End of Lesson

- Save your work
- Log off or shut down your PLD

Supporting Students in Using AI Effectively & Responsibly

Using Generative AI Effectively & Responsibly
A quick guide for students

1 | USE AI AS A LEARNING TOOL, NOT A SHORTCUT

Use AI to:

- Explain concepts you don't understand
- Ask questions and explore ideas
- Get feedback to improve your work

Do NOT:

- Copy answers blindly
- Submit AI output as your own work

AI Supports learning,
you do the thinking.

**2 | THINK CRITICALLY,
AI CAN BE WRONG**

AI responses may be:

- Incorrect
- Outdated
- Biased
- Incomplete

Always ask:

- Does this make sense?
- Is this accurate?
- Should I check another source?

Check with:

- Textbooks
- Trusted websites
- Your teachers

**3 | ASK BETTER QUESTIONS,
GET BETTER ANSWERS**

AI works best when you are clear and specific.

You can try to specify your instructions to the AI chatbot with these simple handles:

ROLE Tell the chatbot what role you want it to take.
e.g. "You are the expert on plants."

TASK Provide the task you want the chatbot to do.
e.g., "Explain the process of photosynthesis like how you would to a 15 year old."

OUTPUT Tell it how you want your answers structured.
e.g., "I want the process explained in bullet points."

Clear prompts = more useful responses.

4 | STAY SAFE & BE RESPONSIBLE

Protect your privacy

- Do NOT share personal details
- Do NOT treat AI like a friend or counsellor

If AI gives a response that feels:

- Strange,
- unsafe or
- pushes you to share personal info

Stop and tell a trusted adult immediately

Remember:

- AI is not human
- It cannot judge right or wrong.
- Conversations may be stored or reviewed.

**5 | BE HONEST,
AVOID PLAGIARISM**

Good practice when using AI:

- Cite the AI tool used
- Keep your original draft
- Reflect on how AI helped you

Avoid prompts that copy:

- Artists' styles
- Brands' designs
- Copyrighted work

Your Thinking + AI Support = Meaningful Learning

One-stop Site for Students

Whitley Digital Learners Portal

Welcome to the Whitley Digital Learners Portal

This portal is your one-stop hub for information and support on the use of Personal Learning Devices (PLDs) in school. It is designed to support students with getting started, daily use, care, safety, and troubleshooting, as well as key information on digital learning and the MOE Device Management Application (DMA).

Parents'/Guardians' Role

Parents/guardians play a crucial role in guiding your child/ward to use devices responsibly and safely. We would like to partner parents/guardians so that students are well supported in their use of technology for learning.

YOU CAN HELP IN THESE WAYS:

1 Model Good Digital Habits

- Set a good example e.g., not using devices during family meals

2 Have Conversations About Digital Use

- Talk to your child/ward about the safe and responsible use of technology

3 Set Ground Rules Together

- Agree on Internet/device usage rules as a family.

4 Encourage Use of Productivity Tools

- Help your child/ward use productivity tools on their PLD to organise information and simplify tasks for efficiency.

Supporting Resources

Here are some resources that you can refer to:

A. Parent Kit

B. Bite-sized tips and advice via Parentingwith.MOEsg Instagram page

C. Resources from MOE and other agencies (available on resources repository in Parents Gateway)

The screenshots show the "Parenting Resources" section of the Parents Gateway. The first screenshot displays a card for "Guidance on Screen Use in Children" dated Wednesday, 1 March 2023. The second screenshot shows a "Based on your preferences" section with "Cyber wellness" selected, featuring a "Handy Guide to Screen Use" card dated Wednesday, 1 March 2023.

Supporting Resources

Here are some resources that you can refer to:

D. Parenting for Wellness Toolbox for Parents and Parenting for Wellness Website on Parent Hub

The Parenting for Wellness initiative provides bite-sized resources (practical tips and strategies) on building strong parent-child relationships, supporting your child's mental well-being and parenting in the digital age.

E. More resources are available via [the MOE Cyber Wellness Webpage](#)

A screenshot of the MOE Cyber Wellness webpage. The main heading is 'Practising Cyber Wellness'. Below it, there is a brief description: 'Cyber Wellness is about equipping our young ones to be a responsible digital learner...'. There are also links to 'Programme Overview' and 'Curriculum'. A QR code is visible at the bottom right.

A screenshot of the MOE Cyber Wellness webpage under the 'What is Cyber Wellness?' section. It defines Cyber Wellness as 'the ability for our children to effectively manage their digital lives while staying safe and healthy online'. It also mentions that Cyber Wellness is a core competency in the Curriculum. A QR code is visible at the bottom right.

Support at home

Parents play a key role in their children's growth. Students benefit the most when the home and school environments are aligned to each other. To help your child stay safe and have positive experiences online, you can:

- ▶ Activate parental controls on your home devices.
- ▶ Model good digital habits for your child.
- ▶ Set ground rules for internet use.
- ▶ Navigate the internet together to understand their usage.

Resources

Learn more about how to keep your child safe online through these resources.

From MOE

- ▶ [Recording of Instagram Live - Raising Digitally Smart Kids](#)

Supporting Resources

Here are some resources that you can refer to:

F. Parent Handbooks (I) and (II) on Learning with a Personal Learning Device

These Handbooks provide tips on supporting your child in the use of PLDs for learning and are shared via the PG notification together with the letter to purchase PLDs.

The image is a screenshot from the Parent Handbook (I) page titled "What is the MOE National Digital Literacy Programme (NDLP) and how will learning with a PLD benefit my child?". It starts with a question and an answer about the NDLP. Below that, it lists three ways learning with a PLD benefits children: "Enhance teaching and learning", "Support self-directed & collaborative learning", and "Support the development of digital literacies". Each benefit has a corresponding illustration and a detailed description.

What is the MOE National Digital Literacy Programme (NDLP) and how will learning with a PLD benefit my child?

Through the NDLP, students will be better equipped to acquire digital skills needed to navigate an increasingly digitalised world. As part of the programme, all secondary school students will own PLDs by end 2021.

Each child will have their own device, and learning will be supported in the following areas:

- Enhance teaching and learning**
Learning with a PLD supports greater personalisation and differentiation in learning.
Each student's learning experience can be more tailored and personalised to his/her learning needs, interests, progress and skills.
- Support self-directed & collaborative learning**
Learning with a PLD enables students to engage in self-directed learning, and to learn together with their peers, anytime and anywhere.
Students can access digital resources on their own to acquire knowledge about topics of personal interest beyond the curriculum. They can also share and build on one another's ideas, and refine their own understanding.
- Support the development of digital literacies**
Learning with a PLD provides an immersive environment for students to acquire digital skills.
Students will learn digital skills such as gathering and evaluating information online, interacting with the online community, and creating digital products.

Role of the MOE Device Management Application (DMA) in Providing a Safer Digital Environment for Learning

MOE DMA

- The MOE DMA solution for Chromebook, Lightspeed Systems®, is an app that will be installed on all students' PLDs to support their safe and responsible use of devices.
- The DMA will be funded by MOE.
- The installation of the MOE DMA applies to both devices purchased through the school and any student-owned devices that parents/guardians opt for the student to use instead of the school-prescribed PLD.
- The MOE DMA will be installed after the collection of the device. Students will be guided on the installation.
- The MOE DMA will be uninstalled from the device when students graduate or leave the school.

In-School DMA Settings (Default)

- MOE and the school will set the level of web content filtering, including filtering objectionable content or content that may not be conducive to teaching and learning (e.g., online messaging, social media, pornography, gambling, or websites containing extremist content).¹

- Hours

School Hours	6.30 am to 3.00 pm
After School Hours	From 3.00 pm to 10.30 pm
Device will shut down at 10.30 pm by default.	

¹ YouTube is not blocked by default as teachers use YouTube for teaching and learning. However, YouTube videos that are categorised as harmful by YouTube Restricted and Lightspeed Smart Play are blocked.

After-School DMA Parent Options (Summary)

	Default	Option A Modify DMA settings	Option B Disable DMA settings
Filtering of Web Content	MOE/School sets the level of filtering	Parent can apply additional filters	No content filtering
Control of Applications	Parents cannot install additional applications	Parents can install additional applications	Parent can install additional applications
Limits to Screen Time	School sets limits for screen time	Parent can modify limits for screen time	No limits to screen time
Monitoring of Cyber Activities	Parent can monitor child's browser history	Parent can monitor child's browser history	No data is collected Parent cannot monitor child's use of the device through DMA

Opting for the Default DMA setting for after-school use is the best option for parents who prefer not to or do not feel ready to manage their child's device use on their own.

For more details, please refer to the next 5 Slides on After-School DMA Parent Options.

Support for Parents/Guardians

Consider the following questions to choose the After-School DMA Parent Option that best suits your child/ward.

A. Child's/Ward's Device Usage Habits

- How much time does my child/ward spend on their device?
- How well is my child/ward able to regulate their device usage on their own?
- Does my child/ward get easily distracted while doing online learning?

B. Parents'/Guardians' Involvement

- How confident and familiar am I with managing my child's/ward's cyber wellness?
- Are there existing routines and open conversations on the use of the Internet at home?
- Am I aware of how to prevent different types of cyber threats that my child/ward might face

Data Collected by the MOE DMA

1

The MOE DMA does **NOT** collect any of the following data:

- ✖ Login IDs and passwords entered into websites or apps
- ✖ Actions performed (e.g., posts, online comments, shopping cart items) when visiting websites and using apps
- ✖ Documents and photos stored in the PLDs
- ✖ PLD location
- ✖ Webcam videos and microphone recordings

2

Parents may update their personal data (e.g., email addresses, names) by contacting the school, in accordance with the Personal Data and Protection Act (PDPA).

Data Security

- All user data collected through the MOE DMA will be stored in secure servers managed by appointed DMA Vendors with stringent access controls and audit trials implemented.
- Data such as device information, email address of students and parents, device information will be deleted when the student graduates or leaves school. Website URLs accessed by students will be deleted at the end of each term.
- The MOE DMA solutions used are cloud-based Software-as-a-Service (SaaS) solutions and are trusted solutions that have been operating for many years. They have also been subject to regular security reviews and assessments by independent reviewers.

Data Security

- The MOE DMA solutions have sufficient security robustness to ensure that the data collected is properly stored and protected. MOE will also subject the DMA Vendors to regular security system audits based on tender requirements.
- To prevent unauthorised access, DMA Administrators and DMA Vendors will be required to access their accounts using 2-factor authentication or the equivalent to ensure proper accountability for information access and other activities performed. There will be regular account reviews and audits for DMA Administrators' and DMA Vendors' accounts.

Device and Funding Information

WSS Personal Learning Device

ACER CHROMEBOOK SPIN R857TN (Enhanced)

Processor	Intel® Processor N250*
Memory	8 GB
Storage	64GB eMMC
Screen Size	12.2" WUXGA Touch Display
Weight	1.5 kg
Camera	Dual Webcam (Top of display + Top of keyboard)
Warranty	4 Years*
Additional items	USB Mouse, Notebook Carrying Bag, Power Adapter, Active Stylus Pen

* School upgraded components

Estimated Price (after GST)
\$ 632.20

Please note that the price of the PLD Bundle may appear to be higher than similar models on the retail market as the price of those devices usually does not include extended warranty and insurance coverage.

Insurance Coverage

Insurance Coverage	Claimable
<ul style="list-style-type: none">• Fire• Lightning• Power Surges• Accidental e.g water spillage, drop etc• Theft due to forcible entry• Robbery <p>* Accidental loss will not be covered by insurance.</p>	2 repair or 1 Replacement (4-Year Insurance)

(For buying of accessories)

Funding Support for Singapore Citizen (SC) Students

The cost of the device bundle can be paid using your child's/ward's Edusave account, after setting aside provision for payment of miscellaneous fees.

To ensure affordability of devices, MOE has provided the following Edusave top-ups:

Annual Edusave Contributions

- ✓ \$290 per year for Secondary School students
- ✓ \$230 per year for Primary School students

Funding Support for Singapore Citizen (SC) Students

- For SC students who are on MOE Financial Assistance Scheme or whose family's monthly income meets the following criteria:

Gross Household Income (GHI) $\leq \$4,000$, or

Per Capita Income (PCI) $\leq \$1,000$

MOE will subsidise 50% of device bundle cost or \$350,
whichever is lower.

- The remaining amount will be payable from the students' Edusave account. If there is insufficient balance in the students' Edusave account for the remaining amount, MOE will provide additional subsidy so that the cash out-of-pocket (OOP) is \$0.

Funding Support for Singapore Citizen (SC) Students

- For SC students whose family's monthly income is:

\$4,000 < Gross Household Income (GHI) ≤ \$5,500, or

\$1,000 < Per Capita Income (PCI) ≤ \$1,375

MOE will subsidise 30% of device bundle cost or \$200,
whichever is lower.

- The remaining amount will be payable from the students' Edusave account. If there is insufficient balance in the students' Edusave account for the remaining amount, MOE will provide additional subsidy so that the cash out-of-pocket (OOP) is not more than \$50.

Funding Support for Singapore Citizen (SC) Students

- Subsidies will not be provided for SC students whose family's monthly:
 - Gross Household Income (GHI) is above \$5,500 or
 - Per Capita Income (PCI)[#] is above \$1,375.
- Parents/Guardians can use their child's/ward's Edusave or cash to defray the device bundle cost.

[#]PCI is Gross Household Income divided by the number of household members.

What's Next?

Parental Consent for Procurement

Parental Consent for Procurement

1. Parents/Guardians can access the **Parental Consent for the Purchase of Personal Learning Device (PLD)** via a Parents Gateway (PG) notification* that will be sent to you on **12 Jan 2026**.
2. Parents/Guardians who want to use Edusave funds for the PLD (for Singapore Citizens students only), please access: [**https://go.gov.sg/edusaveformsgso**](https://go.gov.sg/edusaveformsgso) by **21 Jan 2026** to set up a **PDLP Standing Order** as this was not applicable during primary school.

* Parents/Guardians without access to PG can request for the hardcopy letter via your child's/ward's form teacher.
